[The Importance of Play in Promoting Healthy ... - Pediatrics](#)

Wed, 21 Jun 2006 23:54:00 GMT

Play is essential to development because it contributes to the cognitive, physical, social, and emotional well-being of children and youth. Play also offers an ideal opportunity for parents to engage fully with their children. Despite the benefits derived from play for both children and parents, time for free play has been markedly reduced for some children.
